BONESUPPORT*

Mr. Stuge is Executive Chairman at Impulse Dynamic NV. He has previously twelve years experience at Medtronic Inc., in different positions including Senior Vice President & President Cardiac Surgery, President EMEA, Latin America, Canada & India, member of the Executive Committee & Operating Committee. Medtronic is the world's largest medical technology company and market leader in spinal therapies.

Oern Stuge also has six years experience from Abbott Laboratories, six years as a practicing physician and a MBA from Lausanne.

"This is an important step for BONESUPPORT. With Mr Stuge as chairman we will have a board with very strong expertise and competence along with an impressive range of personal contacts within medical technology, which is a great advantage during our present expansion phase ", says BONESUPPORT President Fredrik Lindberg.

"I look forward to working with BONESUPPORT and to be joining them on their exciting journey. Especially now when they are in a very expansive commercialization phase", says Mr. Stuge.

Mr. Stuge will join the BONESUPPORT board on Nov 10<sup>th</sup>, 2011. Michael Pålsson, the former Chairman, remains as a member of the BONESUPPORT board.
